## Aula & Anton-Zeilingger-Salon

### ⚙️ Tracing Information Society – A TIMELINE

**Aula | Thursday & Friday, all day**

With Tracing Information Society—A TIMELINE, the Vienna-based research platform TECHNO POLITICS transforms the ÖAW hall into a curated knowledge space: a 14-metre-long timeline illustrates key milestones in the development of the information society from 1900 to the present day. You're warmly invited to explore the installation and become part of it.
